## HA-45 overhead 4 1/2" Remote Drive-Up system

Based on the legendary HA-1000, the Hamilton Safe HA-45 delivers all the reliability and low maintenance that customers have come to expect from Hamilton Safe drive-up systems.

### Long-term durability

- Drive-up unit is fabricated from rugged stainless steel

### Small footprint

- Fits almost anywhere and the HA-45 is ideal for any new installation, or for retrofits

### Whisper-quiet operation

- with Hamilton's patented PowerStar remote turbines

### Blowers and motors

- Are located in the customer unit. No need to mount in the canopy or isolated area

### The clearest audio quality

- Digital audio technology ensures clear uninterrupted communication between the teller and your customer

### Service access from the front

- Therefore the back of the unit can be placed against the building or structure

### Optional Customer Video Unit

- Provides clear video communication with customers at remote locations

## Features of HAMILTON AIR HA-45

Engineered for outstanding reliability and superb cost-effectiveness

Teller Unit

HA-45 is engineered to Hamilton's legendary high standards:

- **Maximum teller space.** The low-profile teller terminals allow for unsurpassed line-of-sight visibility.
- **Simple installation.** Only a single tube is needed to connect the HA-45 to a teller station.
- **Exclusive turbine system.** The super-reliable and patented PowerStar turbine system provides maximum load-carrying capacity with lower operating costs.
- **Easy to service.** Components are easy to replace if they become worn or damaged, so there's no delay in keeping your unit operational.
- **A/V Communications Package** Customers enjoy clear and comfortable communications when Hamilton Audio and Video consoles are combined. The full-duplex audio system can serve up to 12 remote locations while a bright 10" LCD display helps make the transaction personal and direct.
- **Model 5517 Customer Video** Large 10" LCD display along with wide dynamic color camera delivers crisp clear video communication. A high-intensity sun viewable option is also available.
