Subject:

Wireless Headset model CS-540 replaces model CS-55

All Hamilton Dealers,

The Plantronics wireless headset model CS-540 will be replacing the model CS-55. Plantronics has stopped manufacturing the model CS-55 so these units will no longer be available after our stock is depleted. We will continue to offer replacement parts as long as Plantronics continues to support the model CS-55.

The new model CS-540 (shown below) has some added benefits and features such as it is lighter, has an increased range, has wideband audio quality, and new headsets can subscribe to a base by simply docking the headset. These are just a few features that will benefit the end users.

The new CS-540 headset systems will remain the same cost as the previous CS-55 model. Listed below is the part number and price for the new CS-540 system.

| <u>Item</u> | <u>Description</u> | <u>Dealer Cost</u> | <u>Availability</u> |
|-------------|--------------------------------|--------------------|---------------------|
| CS-55 | Wireless headset (Plantronics) | \$235.00 | Limited |
| CS-540 | Wireless headset (Plantronics) | \$235.00 | April '12 |

If you have any questions or concerns about this change, please contact Bill Detherage via email billd@hamiltonsafe.com or phone (513) 874-3733.
