- Door stop
- Wire wrap and concrete cladding
- Alarm devices
 - Door contacts
 - Thermal sensor
 - Seismic detector
 - Vibration switch

Cash Drawer Organizer

Time Lock

Thermal Sensors and Door Contact

Depository Chute

Chute Closure Device

Night depository path is normally clear and open

If the depository head is compromised, the closure device snaps shut instantly to deny access to the safe and its contents

Made Strong In The USA

Our safes are designed to be effective, efficient and last longer than our competitors' equipment. We pride ourselves on simplistic designs and robust construction resulting in lower maintenance costs and years of expected product life.

Manufacturers and providers of the latest in modular vaults, vault doors, pneumatic tube systems, safes, night depositories, safe deposit boxes, drive-up equipment, audio video systems, entrance control systems and electronic surveillance equipment.

BUILT TO YOUR SPECIFICATIONS

Choose virtually any combination of interior, size and color

Popular Interior Options

Steel Safes

Versatile Hamilton steel safes allow you to configure security storage to fit virtually any need.

- Security Ratings:** TL-15 and TL-30
Body: 1" or equivalent steel plate
Door: TL-15 = 1" TL-30 = 2"
Boltwork:
- Solid steel bolts
 - Mechanical relocker included to provide a secondary defense
- Types:**
 Teller | Teller Receivers | Depositories
 Square Safe | Portable Vaults

Composite Safes

An alternate to plate steel, composite safes have a body & door that consist of thin steel forms filled with high-performance, high-tech aggregate.

- Security Ratings:**
- TL-15, TL-30, TL-30x6
 - 2-hour fire rating
- Body:**
- 2" composite for TL-15 and TL-30
 - 4" composite for TL-30x6
- Door:** TL-15 = 2" | TL-30 = 4"
- Boltwork:**
- Solid steel bolts
 - Mechanical relocker included to provide a secondary defense
- Types:**
 Teller Safe | Teller Receivers
 Depositories | Square Safe
 Portable Vaults

TWO-HOUR Fire Rating

TRTL-30x6

"The ultimate in high security," Hamilton manufactures safes that are UL rated to withstand 30-minute attacks using both torch (TR) and tools (TL).

- UL Listed 30-minute torch and tool attack on all six sides of the safe.
- The latest composite technology
- Massive 4-way boltwork
- Glass relockers
- Perfect for jewelers, banks, credit unions and pharmaceutical storage

TWO-HOUR Fire Rating

TRTL-30

These high-security safes are rated to substantially resist mechanical and high-temperature attacks.

- Two-hour fire rating
- UL Listed for 30-minute attack with tool and torch
- Latest in composite technology
- Mechanical relockers
- 5" door
- 3 1/2" composite body
- Custom built for your needs

TWO-HOUR Fire Rating
