

HAMILTON SAFE®

innovative security products

DESIGNED TO SERVE & PROTECT

Superior security products engineered for reliable performance

Security Solutions

for the real world

an American company

ENGINEERED AND BUILT FOR MAXIMUM SECURITY & CONVENIENCE

Founded in 1967 by Harvey L. Henkel and Robert "Red" Deluse, Hamilton Safe has grown to become one of the largest manufacturers of physical security products, pneumatic tube systems and audio/video systems in the United States. Based in Fairfield, Ohio, Hamilton operates five different facilities throughout the Cincinnati metro area consisting of more than 350,000 square feet of manufacturing space.

Our products are sold under the brands Hamilton Safe, Hamilton Air and Hamilton Products Group. The hard steel security products such as vaults, safes, safe deposit boxes and depositories are Hamilton Safe brand. Our drive-up and point-to-point pneumatic tube systems along with audio and video components are Hamilton Air. The products we manufacture for the government and military fall under Hamilton Products Group.

Vault Equipment, Safe Deposit Boxes & Lockers

The recognized leader for design, engineering and construction of UL-Listed vaults and vault doors, custom and modular safe deposit boxes and teller lockers.

Safes & Depositories

The most advanced depository systems along with being the leader in building UL-Listed custom safes designed to your needs and specifications.

Drive-Up Systems, A/V, Windows & Deal Drawers

We manufacture the industry's most advanced drive-up systems including windows, drawers, overhead and underground tube systems as well as audio and video communications systems.

Superior Product Reliability

Hamilton products are designed to be effective, efficient and last longer than our competitors' equipment. We pride ourselves on simplistic designs and robust construction resulting in lower maintenance costs and years of expected product life.

Custom Build Specialists

Need something different, unique or one of a kind? No big deal for Hamilton Safe. We build everything in our own factories. Producing something custom to meet your specific needs and specifications is normal business for us.

Innovations That Changed The Industry: Hamilton Safe Leads The Way With Many Firsts:

- Built a stainless-steel clad vault door
- Integrated an emergency ventilator with the vault doorframe
- Designed and built an envelope-loss-proof, UL-Listed night depository head
- Engineered and built an "overhead" drive-up system
- Designed and manufactured a remote drive-up system using 110v single-phase electrical supply
- Produced and designed a night depository that audits deposits through card access and receipt generation
- Innovated and engineered an entrance control system that detects and refuses entry to anyone carrying metal weapons
- Patented, invented and developed a dispensing machine to accommodate commercial volumes of rolled coin and cash

Entrance Control Systems

The original US developer of entrance control systems that detect and refuse entry to anyone carrying metal firearms and weapons.

Electronic Security

A complete line of surveillance, access control, alarm systems, biometrics and other innovative equipment to safeguard property and people.

Property & Evidence Storage/Transfer

We build custom safes, pass-throughs and multi-compartment locker configurations for both temporary and permanent secured storage of property, evidence and documents.

Nationwide Dealer Network

We sell our products through a nationwide network of authorized Hamilton Dealers. Our dealers are trained to sell, install and service our equipment. We cover all 50 states and Canada. We also have international dealers with representation in several countries outside North America.
