

# Are you tracking the pulse of your drive-up transactions?

Did you know that on average, a remarkable **50-70%** of all banking transactions are conducted via the drive-through?

## Introducing Gunnebo iQ for Drive-Up Solutions

- Troubleshoot systems remotely
- Reduce service calls
- Minimize disruption to operations
- Manage preventative maintenance
- User friendly interface
- High security and login protocols protecting data

Designed to enhance a banking branch's operational efficiency, this software will transform how your customers capture and analyze real-time analytics. Using Gunnebo iQ, banks will improve operational efficiency, reduce wait times, and improve customer satisfaction.

Future managed services coming for:  
• Safes • Vaults • Locks • Night Depositories
