

## Oncam End-of-Life / Transition Notice

### EVO-12 Series → C-12 Series

Oncam has discontinued production of the Oncam EVO-12 Series (black *and* white models), and has transitioned to the C-12 Series as the replacement for their 12MP 360° cameras.

**In addition, they have also discontinued the Oncam EVO-180 Indoor Surface Mount 180° camera in black (36748-102).** There is no direct replacement model for this camera; please sell the white model to customers who need a 180° indoor camera (36748-101).

March Networks will continue to provide technical support and repair services for these cameras for the duration of their warranty period. Any cameras sold after the last time buy date will be to the end of support date.

The EVO-12 Stainless Steel models remain available for sale.

As a reminder, the C-12 cameras have a more compact form factor, feature improved compression technology, and are NDAA-compliant. They are ideal for wide area situational awareness, and they seamlessly integrate into our existing portfolio.

### Key Dates

Phase	Description	Date
<b>Announcement date</b>	Date announcement delivered to customers	November 4, 2020
<b>Last time buy date</b>	Last date March Networks will commit to having product available for sale (or until supplies last). March Networks will continue to sell EOL product after this date as supplies allow.	December 4, 2020
<b>End of repair date</b>	Last date March Networks will commit to repairing returned product.	September 4, 2023
<b>End of support date</b>	Last date March Networks will commit to ensuring that these products will remain compatible with other software components or providing any software updates to resolve issues.	September 4, 2023

## Camera Comparisons

Use this chart to determine the replacement camera for the now EOL EVO-12 camera. Please keep in mind the C-12 Series is only available in white, so there is no direct replacement for a black EVO-12 camera.
