Bullet Resistant Windows

Hamilton's windows are architecturally appealing and built to resist ballistic, wind and impact, and forced entry threats, making drive-thru and walk-up operations safe, secure and efficient.

PAIRED DRAWER OPTIONS

DCD-18 Large

College Hill Motorized

SLCD-MAN Manual

Transaction Drawers pair easily with Hamilton's Windows to facilitate transfer of cash, containers and other items without compromising security. Both the window and drawer units are designed to be used together, but are available separately to retrofit existing drive-thru and walk-up equipment.
